EDUCATION

2022 - 2026

**BANGLADESH ARMY UNIVERSITY OF
ENGINEERING & TECHNOLOGY (BAUET)**

- B.Sc. in Computer Science and Engineering
- CGPA: 3.61/4.00

2018 - 2020

DIGHAPATIA M.K. HON'S COLLEGE

- Group of Science
- GPA: 4.58/5.00

2009 - 2018

NATORE GOVT. BOY'S HIGH SCHOOL

- Group of Science
- GPA: 4.33/5.00

TECHNICAL SKILLS

Programming Languages:

- C++, Java, JavaScript, Python

Web Technologies:

- HTML, CSS

Tools/Technologies:

- Git, GitHub, Firebase, MySQL

PROFILE

Computer Science and Engineering graduate with hands-on experience developing web, IoT, and software-based applications. Experienced in leading project teams, solving technical problems, and developing practical technology solutions. Seeking an entry-level software development opportunity to apply technical skills and contribute to real-world projects.

PROJECTS

Real Time Heart Monitoring System in IOT Environment

Team Leader - Led a 3 - member team, assigned development tasks, coordinated project milestones, and managed system integration and testing.

- Developed an IoT-based heart monitoring system for real-time monitoring of heart rate and ECG signals.
- Implemented continuous cardiac data monitoring and visualization.
- Worked on ECG/heart-rate data acquisition, processing, and communication between system components.

Gearheads (A vehicle maintenance system)

Team Leader - Led a 3 - member team, assigned development tasks, coordinated project milestones, and managed system integration and testing.

- Developed Gearheads, a comprehensive car maintenance system enabling users to track services, connect with providers .
- Addressed the gap in localized vehicle servicing by creating an intelligent system that connects users to nearby trusted service providers with ease.

Electricity Billing System

Team Leader - Led a 3 - member team, assigned development tasks, coordinated project milestones, and managed system integration and testing.

- Developed an Electricity Billing System to automate billing processes, featuring real-time meter reading and bill calculation.
- Integrated user-friendly interface for customers to view and manage their electricity consumption, with the ability to generate detailed reports and send automated payment reminders
